

# JOURNEYS TO CHESHIRE

## Oral History Project

### Do you have a story to tell?

People from all over the globe have made Cheshire their home. This year long project is about telling their stories - finding out why they came here, what life was like before and why they decided to stay here.

It will record the unique life experiences of BME communities who live in the Cheshire area, culminating with an exhibition, a DVD and accompanying booklet.

We need people to get involved now as both volunteers to interview people and as interviewees for the project. Full training will be provided.

There will also be opportunities for people to find out more about their own family history working with Cheshire Records Office.

### You might be...

- A Polish Veteran from WW2 who decided to make Cheshire your home.
- Someone who came from the Caribbean on the Windrush to the UK.
- Someone from South Asia who came to join family.
- A Gypsy with many years heritage in the Cheshire area.
- A migrant worker who arrived to work recently and has decided to stay.

We are interested in stories from all age groups young and old if you have a journey of migration to share we want to hear from you!
